

Call for Applicants

The Scientific Council of the Faculty of Pharmacy of the University of Lisbon, under the proposal of the Scientific Committee of the Master Programme in Regulation and Evaluation of Medicines and Health Products, publishes the 2021/2022 Call for Applications:

Master Programme in Regulation and Evaluation of Medicines and Health Products 2022/2023

The Master in Regulation and Evaluation of Medicines and Health Products (RAMPS) has the duration of two lective years. Its focus is the training of specialists in regulatory matters of medicines

The RAMPS 2-year Master study cycle is organized in 4 semesters (120 ECTS) and aims to train experts in the areas of Regulatory Affairs and Regulatory Science competent for working in Pharmaceutical Industry, Regulatory Authorities or other Institutions where Health and Regulatory components are use and need to be interconnected.

The course aims to increase the knowledge on all the regulatory aspects, guidelines, laws and directives, science-based approaches on the development and Marketing authorization of Human and Veterinary Medicinal Products in the European Union and ICH regions. The course will also include the legislation in Health Products based on Medicinal Plants, medical devices, as well as patent laws, pricing regulation and others. The course reflects, in the lectured subjects, the growing presence and relevance of the areas of Regulatory Science in research and development of medicines aligned to the current perspectives of the Food and Drug Administration (FDA), European Medicines Agency (EMA), or scientific organizations like the American Association of Pharmaceutical Sciences (AAPS) and the European Federation of Pharmaceutical Sciences (EUFPS).

Also, the course covers components related to the organization and functioning of the Health System, such as patenting/intellectual property, pricing and reimbursement systems and regimens.

The course aims to guarantee the training of professionals competent for working and solving complex issues in regulatory affairs, regulatory science and translational research, contributing to optimize decision making process.
