Thesis Submssion

Upon completion of the Master's Course (curricular component), all students must register the title and type of their final work, to be approved by the Scientific Council.

The elaboration of the final work can be conducted simultaneously with the completion of curricular units of the Master's Course, up to a number of 12 ECTS.

The requisition addressed to the President of the Scientific Council, accompanied by the required documentation, must be submitted on the FénixEdu Portal, [according to the draft made available on the FFUL website](#), and must be delivered by the following deadline:

- Until 15 de February – for students who, according to their course syllabus, are obliged to attend curricular units in the 1st semester of the 2nd year.

¹ For students with up to three curricular units left to complete the curricular component of the course.
