Thesis Submssion

After completing the curricular component of the Master's Program, all students must register the title and modality of their final work, submitting them for approval by the Scientific Council.

The final work may be developed simultaneously with the completion of courses of the curricular component, up to a limit of 12 ECTS (Credits).

The application must be submitted through Fénix Portal, following the template available on the FFUL website and must be delivered **until October 15**.

¹ Applicable to students who have up to three (3) outstanding curricular units to complete the course's curricular component.
